PROFESSIONAL & TECHNICAL SKILLS

Professional Skills: Photoshop, Illustrator, Figma, Adobe Premier Pro, Blender

Technical Skills: HTML, CSS, JavaScript, Bootstrap, ReactJS, Redux, Redux Toolkit, Tailwind CSS, SCSS, Node.js, Express, MongoDB.

ACADEMIC & OTHER PROJECTS

Bidding-Nepal (Online Auction System)

- Worked in a team of 3, where we made an online auction website that provides a platform for users to sell and bid on products that are added to the website.
- The project focuses primarily on 2 auction types: English Auction and Sealed Auction.
- In the team, I was responsible for prototyping mockups, wireframes and medium-fidelity prototype of the user interface using Figma along with front-end development on visual code.

Tech Stack: HTML, CSS, Bootstrap, Django, PostgreSQL

Sajilo Store (E-Commerce Website)

Github : /github.com/ShlokShrestha/Sajilo_Store

- Developed a full-stack e-commerce application, implementing Redux for state management and incorporating JWT authentication.
- Integrated key features, including an admin dashboard, product filtering, reviews, user profiles, and order history, prioritizing user experience and scalability.

Tech Stack: ReactJS, Redux, CSS, Bootstrap, Node.js, Express, MongoDB, Rest API

EasyAid (NGO Website)

Github : /github.com/ShlokShrestha/EasyAid

- Developed a static, user-friendly React website dedicated to supporting individuals in need, offering a seamless and intuitive interface for users to engage with the organization's mission.

Tech Stack: ReactJS, CSS, Bootstrap
